FIRE WATCH LOG

Fire Watch personnel should continuously patrol the entire facility (or affected area) in a manner such that the entire patrol area is inspected a maximum of every 15 minutes in the following situations: a) The facility has people sleeping. b) The facility is currently occupied by any resident who is not capable of exercising judgment and appropriate physical action for self-preservation under emergency conditions. c) The facility contains an occupied assembly occupancy. Facilities that do not meet the requirements for a 15-minute patrol frequency should have a Fire Watch patrol frequency a maximum of every 30 minutes

A Fire Watch log should be maintained at the facility. The log must be available at all times during the Fire Watch and faxed to the Division's Life Safety Code Manager upon termination of the Fire Watch.
